SUMMARY

Dedicated Full Stack Developer with 2 years of experience at ICT Infracon, specializing in Angular 14 for front-end development and Spring Boot for back-end services. Demonstrated expertise in designing and building complex modules, integrating payment gateways, and implementing secure authentication. Known for collaborating with cross-functional teams and delivering projects on time.

EXPERIENCE

Full Stack Developer

ICT Infracon

📅 06/2021 - Present 📍 Bangalore, IN

- Utilized Angular 14 for the front-end and Spring Boot for the back-end, with RESTful APIs to support data flow.
- Designed and implemented student and teacher registration forms with validation, ensuring data integrity and usability.
- Contributed to the overall architecture and design, collaborating with team members to ensure consistent development practices.

Coffee Board of India

Coffee Board of India

Developed the seed supply module, allowing users to request coffee seeds from the Coffee Board. Integrated user-friendly interfaces for placing orders, tracking status, and receiving notifications.

- Implemented payment processing with secure payment gateways, enabling users to make payments upon delivery.
- Utilized Angular 14 for the front-end and Spring Boot for the back-end, with RESTful APIs to support data flow.
- Collaborated with stakeholders to gather requirements and adjusted the module according to feedback.

University Management System

Primus b school

🔗 <https://www.primusbschool.com>

Designed and implemented student and teacher registration forms with validation, ensuring data integrity and usability.

- Developed an online examination platform with multiple-choice questions (MCQs) and integrated back-end services for seamless data flow.
- Contributed to the overall architecture and design, collaborating with team members to ensure consistent development practices.

STRENGTHS

Communication

Prioritize clarity, ensuring understanding in diverse interactions, and maintaining transparency with stakeholders, fostering trust.

Collaboration

Cultivate teamwork, mutual respect, and inclusivity, driving innovation and collective achievement through active participation and consensus-building.

Problem-solving

Employ analytical, creative, and resilient approaches to overcome challenges, with a proactive mindset to mitigate risks. Embrace collaboration for brainstorming and co-creating solutions, fostering continuous learning and growth.

ACHIEVEMENTS

Development of Coffee Board of India'

Orchestrated the development of Coffee Board of India's seed supply module, integrating intuitive interfaces and secure payment gateways for streamlined operations, enhancing user satisfaction.

Team Leadership

Engineered registration forms with stringent validation and an online examination platform for the University Management System, ensuring seamless data flow and modernizing assessment processes.

Efficiency Improvement

Collaborated closely with stakeholders to refine requirements and deliver tailored solutions, fostering a productive work environment. Through effective communication and problem-solving, facilitated project completion within set timelines and quality standards, driving operational excellence.
